

## Best-In-Class Isolation and Actuation Products

Engineering · Project Management · Field Service

Large Local Inventory Available for Same Day/Next Day Delivery!

### BUTTERFLY VALVES IN STOCK

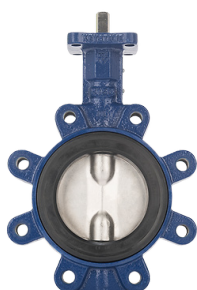

**Keystone™ Series 221/222  
Resilient Seated  
Butterfly Valves**

**Connection:** Lugged

**Pressure:** 250 psi

**Sizes:** 2"-12"

**Keystone™ Series GR  
Resilient Seated  
Butterfly Valves**

**Connection:** Lugged

**Pressure:** 230 psi, 150 psi

**Sizes:** 2"-12", 14"-30"

**Keystone™ Series 36/37  
High Performance  
Butterfly Valves**

**Connection:** Lugged

**Pressure:** ASME 150,  
ASME 300

**Sizes:** 2.5"-36"

**Vanessa Series 30,000  
Standard Triple Offset  
Valves**

**Connection:** Lugged,  
ASME B16.10 Gate F-F

**Pressure:** ASME 150,  
ASME 300

**Sizes:** 3"-24"

### ACTUATION PORTFOLIO IN STOCK

#### ELECTRIC

**HQ-Series  
Quarter-turn Electric  
Valve Actuator**

**Bettis™ M2CP  
Electric Valve Actuator**

#### PNEUMATIC

**Keystone™ F89  
Pneumatic  
Quarter-Turn Actuator**

**Bettis™ G-Series  
Pneumatic  
Valve Actuator**

## Take a Look Inside Our 40,000 Sq Ft Automation Center

Control Associates has a best-in-class Valve Automation Center with extensive automation and repair capabilities. Our factory-trained technicians typically have experience in the field and with multiple brands. As an Emerson Impact Partner, we have the availability of inventory like no other company in the region.

In addition to our actuation capabilities, we can repair a single valve, as well as handle projects entailing hundreds of valves. Many times, we can get assemblies through the warehouse same day or next day when the components are in stock or within our network. Regardless of your needs, you can count on Control Associates as your partner.

### Here's How We Work:

### Our New York Metro Facility

- 40,000 sq. ft. assembly and automation center; extensive local inventory
- Access to \$200M+ inventory through our network
- 6-ton overhead crane
- Multiple 2-ton jib cranes
- Automated valve seat leak test rig
- Full electric and pneumatic actuator capabilities
- Field service capabilities
- Factory-trained technicians
- Full assembly drawings (on request)

Control Associates is a provider of process control systems, valves, actuation, instrumentation, regulators, relief valves, asset reliability, systems integration, manufacturing execution systems, and data management solutions for industrial and commercial customers in the tri-state metropolitan New York, New Jersey, and Connecticut region. Our unique long-term partnership with Emerson and other leading manufacturers enables us to connect customers with innovative technology, engineering expertise, and 24/7 lifecycle support services to optimize the reliability, safety, profitability, and performance of their operations. Our 40,000 sq ft facility is 20 miles from Manhattan, offering local services and support.
